The WoW Team Transition

The Original Purpose

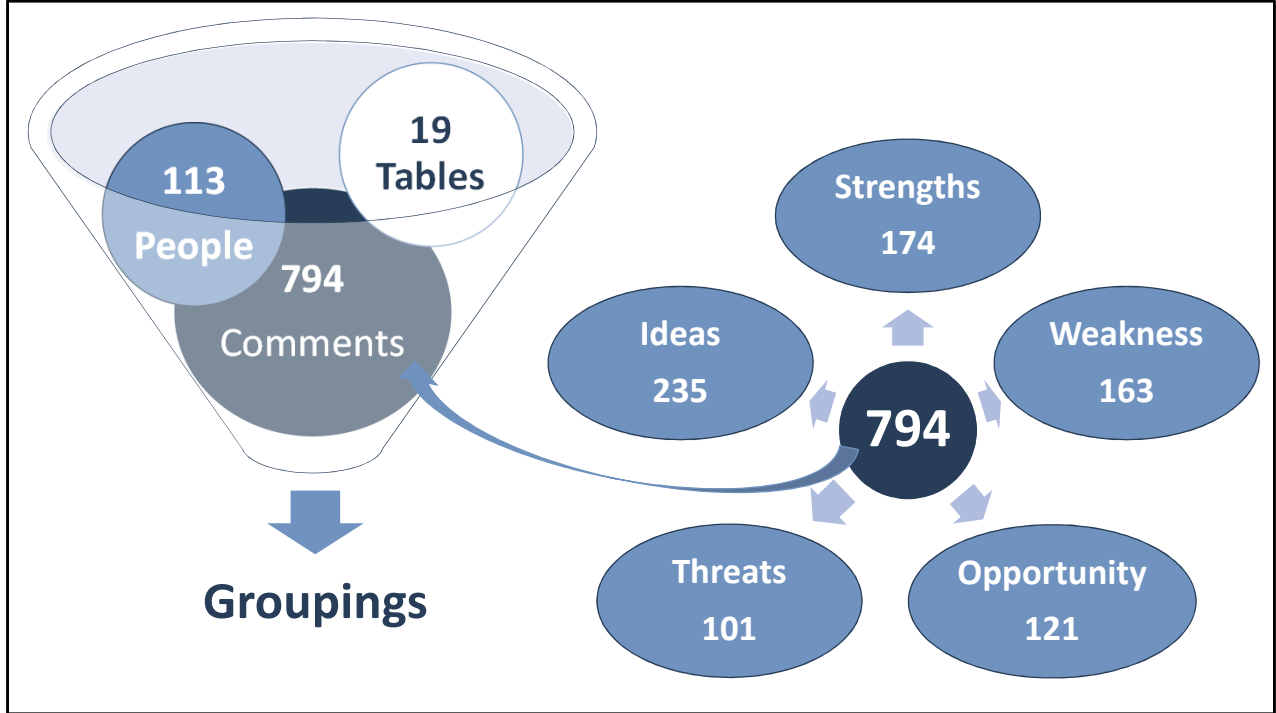

- ❖ Explore the possibility of a second service and the format it might take.

As we journeyed through the process the purpose transitioned.

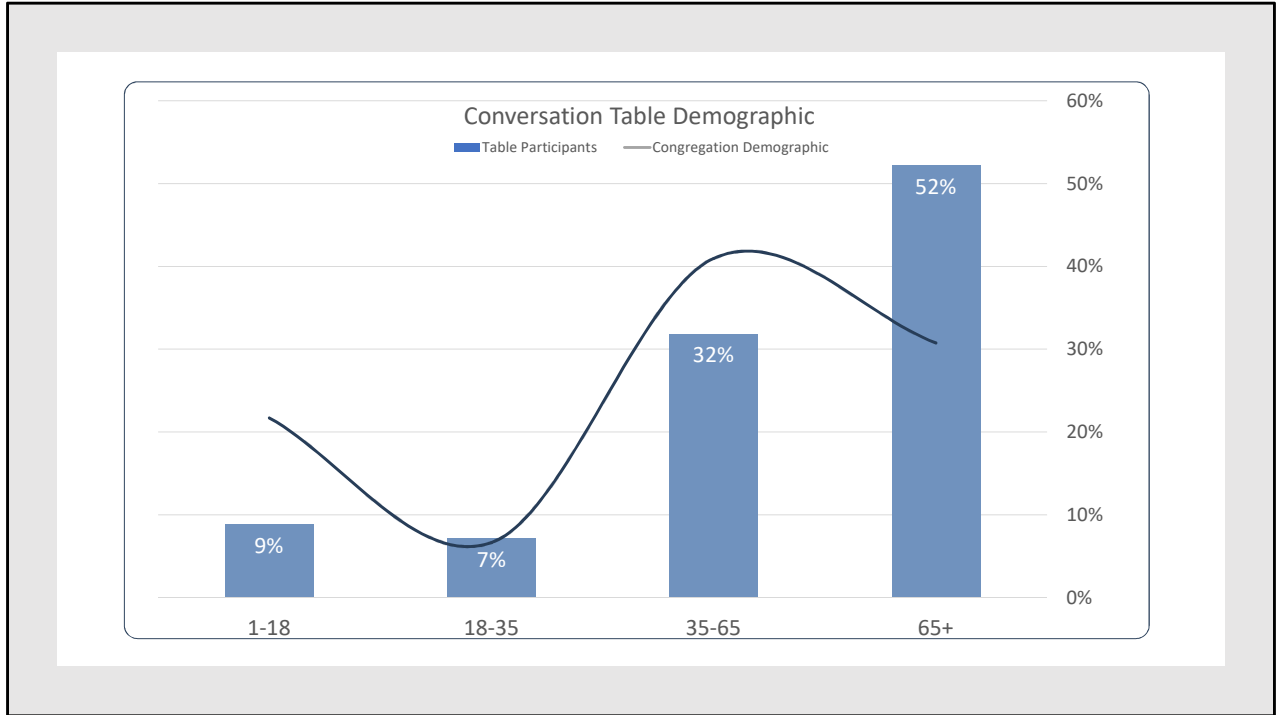

WoW Team Focus Statement

- ❖ Investigate and make recommendations about ways to grow People's Church through enhancing our programs to best serve existing and new members.

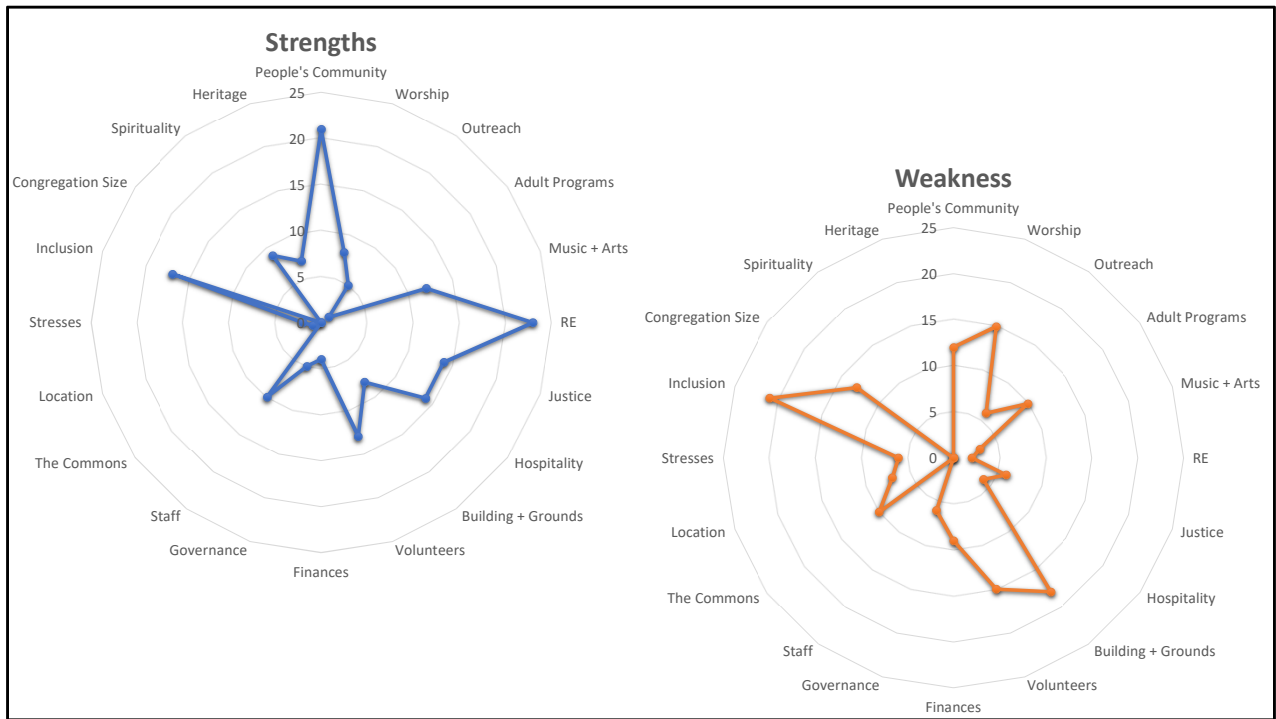

The WoW Team Focus Statement is from our meeting in May 2018.

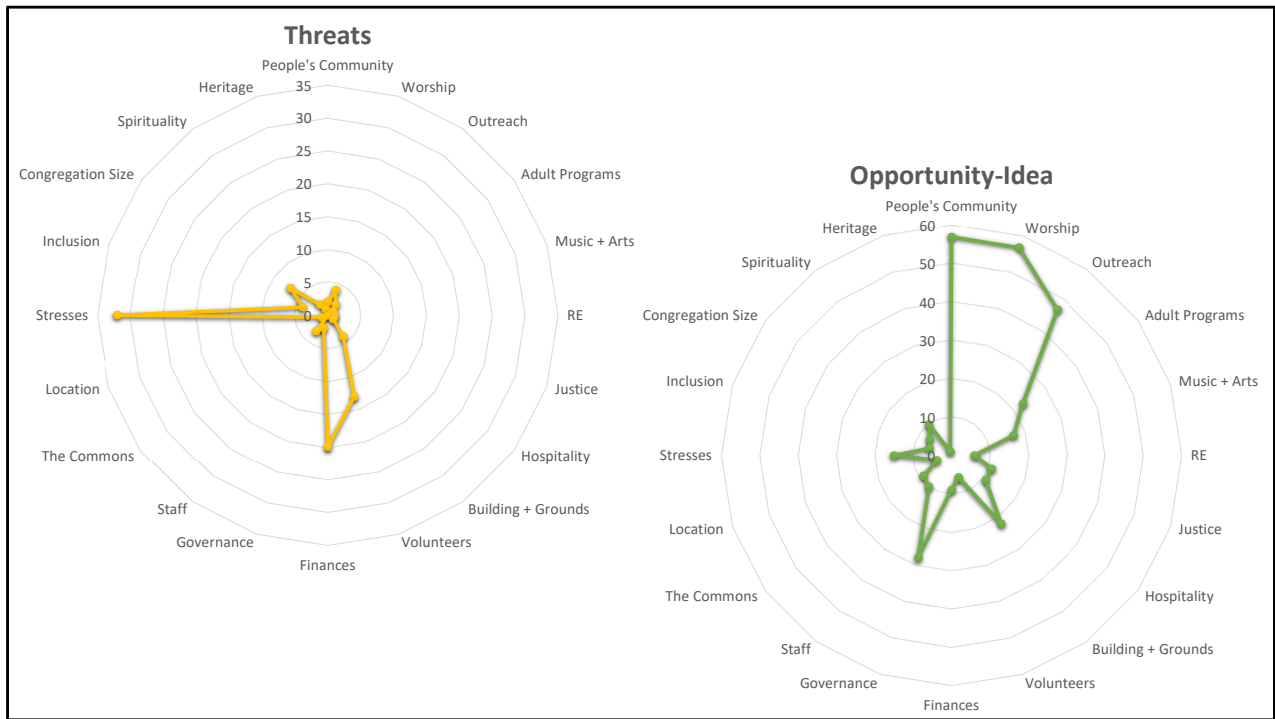

This slide will be used as a reference for us to describe the methodology of our data collection process and a high level summary of our results.

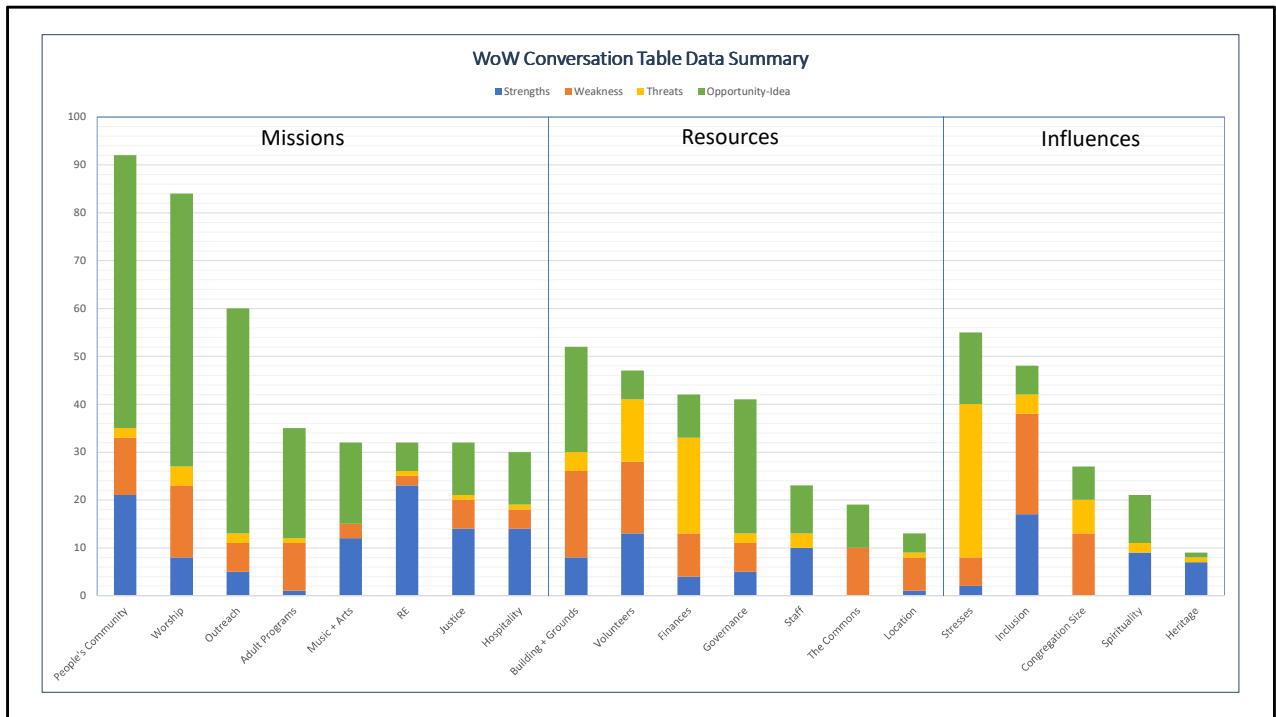

This slide will be used as a reference to explain how the population that participated in the conversation tables (the blue bars) compares to the population of the congregation.

This slide, and the next one, will be used to show the patterns in the data.

This chart shows our data organized into Missions, Resources and Influences and shows the total number of comment in each category from most to least.

This graphic was discussed at our meeting to show influences and resources as the structure we need to feed the fire of our missions. The size of the text used for each name is roughly proportional to the number of comments for that category.
