Questions for Sharing and Listening

- *Question 1: As you think about your efforts to live your values, what is one of the persistent challenges (situations, barriers, impediments) that you encounter with yourself to respond (act, speak) in alignment with your values?*
- *Question 2: When you recognize that you are struggling with a challenge that "hooks" you, and you see that you are veering from your hoped-for response, what is a durable source you can draw on that helps you pause and regroup? And what is the "why" that could compel you to do that?*

Guidelines for discussion: Please speak the truth as you

understand it; please do not comment on others'

comments until everyone has had a chance to do initial sharing.
